C. W. ROSSELL.

What Formaldehyde Is.

The following article from the pen of Mr J. F. Clarke, the well-known chemist, will prove of interest to grain-growers at the present time: "I have frequently been asked the question during the past few weeks, 'What should Formalin or Sal Formaldehyde look like?' Which is the strongest, A solution with a precipitate in, or One that is clear like water?"

The official description of the solution which is 40 per cent. by weight of absolute formaldehyde, is described as: "A clear colorless liquid of pungent odor and caustic taste."

On standing, Solution of Formaldehydesometimes loses its transparency or clearness, caused by decomposition and Paraformaldehyde precipitates out. This precipitate is not always soluble in water and unless the precipitate is evenly divided in the solution in which the grain is dipped uniform results will not be obtained. Heat will liquify Paraformaldehyde, but it is not always practical or possible to have warm water to dip the grain in; and for these reasons the clear, colorless liquid Formalin is to be preferred.

The Minstrel Show.

The minstrel troupe gave its last show of the season on Tuesday night, and it proved to be up to the usual excellent standard. Much amusement was caused, when the added attraction in the person of "Scotty" Avison, of the Imperial Air Force, gave his own inimitable performance. The dance following the show was extra well patronised.

Stony Plain and District.

Miss Mary Miller of Edmonton was a visitor in town on Tuesday.

Mr. Evans made a motor trip to the City on Tuesday.

Valentine Mohr, of Munare, has been in town this week, working on a business prospect.

Alma Grote, an old timer in the Spruce Grove district, but now of Vancouver, was back this week on a visit.

Mr. Bill O'Dwyer, ex-Mayor of Edmonton, was a visitor to Stony over the week end.

The Ladies' Aid, held their regular monthly meeting yesterday afternoon.

A good response has been made by all parties to the appeal for help for the sufferers in the drought-stricken districts, and the committee wish to thank all who so generously to this worthy cause.

Armbruster & Henning made a shipment last week of their new improved patent land, packer, for which they hold the agency.

Death of the Groll Child.

The three-year-old daughter of Mr. and Mrs. Win. Groll, who live at Golden Spike, was found dead in bed on the evening of Thursday, the 26th. The parents had been engaged in work outdoors for a short time and on returning to the house found the child, which had been suffering from croup, had passed away. An inquest was not considered necessary.

LOCAL NEWS.

Mr. and Mrs. S. M. Carnes, of Sage, Wyoming, who had spent the winter on the Kimmerly Ranch left last week for their home in the South.

Miss Clara Oppertshausen, who had been matron at the Onaway Hospital, is visiting with her parents in Stony.

Mrs. Langstaff and Miss Nellie Langstaff, of New Westminster, B. C., are visitors this week with Mr. and Mrs. I. Kowensky.

Miss Gladys Williams returned Friday, from her stay in Edmonton.

Mr. Walter Graden moved into the city last week.

Adam Mohr has moved on the M. Duchesne farm.

Mr. Peter Baron has acquired a Studebaker Auto, and is running a jitney service to the City.

When the legal court opened on Saturday last, the School cases were postponed for another week.

There was quite an influx of new pupils to the local school after the holidays.

The Stony Plain Rifle Club will meet in the Town Hall on Saturday next.

The prospect of a daily mail service after the 1st of May is being hailed with delight by all.

Mr. C. W. Rossell has just finished an alteration to his show windows, which makes a decided improvement.

Mr. Kellough is having a very successful experience with his motor bus service to the City.

A local Ford Club is being formed to send away for a carload of these useful machines, to replace those recently denised.

The Agricultural Society directors held another meeting last week, with the prize list as the main topic of discussion.

The Widenwake Butchers have purchased another gas, ranabout, to replace the one prostrated by heat on March 22.

Bernard Schmitt, O. Mickelson and D. Sutherland each made a small shipment of cattle to the Stock Yards on Friday.

To those who haven't yet gone through the painful process of making their income tax returns, their still remains 2 days.

Some enterprising party last week transposed the basketball layout from the Fair Grounds to the lots adjoining the Town Hall.

The first fresh air excursion of the season was given Friday night last, when a philanthropic car owner drove a party of noisy youngsters around the district, returning to town at an hour when some of the children aboard should have been in bed.

All your little social announcements and intimations, your comings and goings, make good reading, and will be welcome in The Sun's news columns.

Liniments Won't Relieve Pain Between the Eyes

That pain is not rheumatism or neuralgia. Many folks think so—it is due to Catarrh, plain ordinary Catarrh, and needs attention right now. Catarrh is the name of a wonderful invention that is daily fixing up chronic cases of weak throat, bronchitis and catarrh. Every breath through the inhaler is laden with soothing, healing substances that destroy all diseased conditions in the breathing organs. It can't fail to help, because it goes where the trouble really exists, and doesn't attempt to cure an illness in the head or throat by means of medicine taken into the stomach. There is no suffering from a grippy cold or any winter ill that won't find benefit in Catarrh, which is employed by Physicians, ministers, lawyers and public men throughout many foreign lands. Large size lasts two months and costs \$1.00. Small size 50c, sample size 25c, all storekeepers or the Catarrh-zone Co., Montreal.

Canadian Teachers' Tour

Two Hundred and Eighty Teachers Will Comprise the Party

The teachers' tour to Great Britain and the battlefields of France and Flanders is to be a memorable event for some two hundred and eighty teachers throughout Canada, and the plans which are nearing completion promise a "pilgrimage" unexcelled in interest by any of the previous six annual tours under the Overseas Education League. Teachers from Australia, New Zealand and Newfoundland will join with those from this Dominion in the arrangements for the summer. A special feature of this year's plan is the chartering of practically the whole accommodation of the Canadian Pacific SS. "Scotian" which carries with it all those privileges which guarantee the social and vacation pleasures of the seven day Atlantic voyage. Another attractive item on this year's itinerary is the visit to Oxford, Stratford-on-Avon and Warwick, for during that period the teachers have the unique privilege of hospitality in the Oxford colleges by generous permission of the colleges authorities through Sir Herbert Warren, President of, Magdalen College, Mrs. Haldane and other Oxford friends of the league. Arrangements have been made to accommodate the gentlemen of the party in Balliol College, and the ladies in Lady Margaret Hall and St. Jugh's College where, as temporary resident students, they will dine in the College Halls and be given the freedom of undergraduates. It is not easy for the stranger to Oxford college life to appreciate the significance of this courtesy on the part of the college authorities, which is probably without a precedent. In addition,

Strength

Strength of muscle does not indicate strength of nerves. On this account many people who look healthy enough suffer from nervous troubles and cannot understand what is ailing them. Sleeplessness and irritability are among the early symptoms. Indigestion and tired feelings soon follow.

Read this letter from an Ontario man:

Mr. W. L. Gregory, Charles St. E., Ingersoll, Ont., writes: "I had been troubled for quite a while with indigestion. At times there would be a twisting of the nerve of my stomach; and I also found it difficult to get a good night's sleep. I am a modeler, and owing to the nature of my work my system became run-down. I took a treatment of Dr. Chase's Nerve Food, and found great benefit from this medicine. They did me a great deal of good. I have not been bothered at all with indigestion since, and can sleep much better. I have recommended Dr. Chase's Nerve Food to many of my friends, as I think it splendid for anyone who is run-down and nervous."

Dr. Chase's Nerve Food, 50c a box, all dealers, or Edmondson, Bates & Co., Limited, Toronto

W. N. U. 1417

tion, while at Oxford, specially arranged visits will be made to Blenheim Palace by invitation of the Duke of Marlborough, and to tea at Headington by invitation of Mrs. Morrell.

It is also confidently expected that a civic reception will be accorded to the visitors this year by the Lord Mayor of London in the Guildhall, with luncheon and address by the Lord Chancellor of England, Lord Birkenhead, who stands as one of the foremost and one of the youngest leaders in the public life of Britain today.

The programme for France will include a stay in Paris which promises the utmost interest, for the arrangements are being directed by La Bievne Française of which Marshal Foch is President, and Prince Roland Bonaparte the Vice-President. It is through their interest and influence and by the good offices of Madame Beas de Jouvencel, the Secretary-General, that the University of Paris will extend the hospitality of the colleges during the stay in Paris.

Killed by Blood Poison

Used an old razor for paring his corns. Foodish, because 25c buys a bottle of Putnam's Painless Corn Extractor which for fifty years has been removing corns and warts without pain. No failure if you use "Putnam's." Refuse a substitute. 25c everywhere.

Fur Farming

Dr. Church Explains Why Fox Farming in the West Should be Profitable

Last week I told you what had been done by fox farmers on Prince Edward Island. This week I will give a few reasons why the west should be a better place to ranch foxes than the east.

The spring weather of the west is more favorable to the fox puppy. During the months of February, March and sometimes April, fox puppies are born. In the east during these months there is a considerable amount of rain and damp snow fall. The mother fox goes out and gets more or less wet and when she returns to the den to her young they are subject to more or less contact with this moisture and are often chilled and develop pneumonia, sometimes they die from this.

Now in the west you have clear dry sunshine during this period, which is certainly favorable to the fox pup. The number of fox pups raised should be from one-half to one and one-half per cent. higher in the west than in the east, from exactly the same stock, other conditions being equal.

The average on P.E. Island is between two and three pups to the litter, depending on weather conditions chiefly, it should be between three and four pups to the litter in the west. Another condition favorable to the west is the available amount of cheap food. The east has to pay two, three and sometimes four times as much for most things that the fox eats.

Next week I will give other reasons why fur farming can be successfully carried on in the western provinces.—By Dr. W. G. Church, Inspector of Foxes for the Dominion Livestock Branch, Department of Agriculture, Headquarters, Summerside, P.E.I.

World's Climate Changeless

Has Been Maintained Ever Since Earth Was Formed

The first striking fact in the geological history of climate is that the present climate of the world has been maintained since the date of the earliest, unaltered sedimentary deposits. The oldest sandstones of the Scotch Highlands and the English Longmynd show that in pre-Cambrian times the winds had the same strength, the raindrops were of the same size, and they fell with the same force as at the present day. The mean climate of the world has been fairly constant, though there have been local variations which have led to the development of glaciers in regions now ice free, at various points in the geological scale. That there has been no progressive chilling of the earth since the date of the oldest known sedimentary rocks is shown by their lithological characters, and by the recurrence of glacial deposits, some of which were laid down at low levels at intervals throughout geological time, according to the United States Geological Survey.

Albanian Women Will Wear Dresses

Trousers as the national costume for Albanian women are to disappear with the next generation. The Mohammedan mothers have decreed this after seeing the smart, comfortable and sensible dresses worn by women members of the American Red Cross mission there, and observing the results of their work among the girls.

GAS IN THE STOMACH IS DANGEROUS

Recommends Daily Use of Magnesia To Overcome Trouble, Caused by Fermenting Food and Acid Indigestion

Gas and Wind in the stomach accompanied by that full, bloated feeling after eating are almost certain evidence of the presence of excessive hydrochloric acid in the stomach, creating so-called "acid indigestion."

Acid stomachs are dangerous because too much acid irritates the delicate lining of the stomach, often leading to gastritis accompanied by serious "stomach" ailments. Food ferments and sours, creating the distressing gas which distends the stomach and hampers the normal functions of the vital internal organs, often affecting the heart.

It is the worst of folly to neglect such a serious condition or to treat with ordinary digestive aids which have no neutralizing effect on the stomach acids. Instead get from any druggist a few ounces of Blaud's Magnesia and take a teaspoonful in a quarter glass of water right after eating. This will drive the gas, wind and blast right out of your body, sweeten the stomach, neutralize the excess acid and prevent its formation and there is no sourness or pain. Blaud's Magnesia (in powder or tablet form—never liquid or milk) is harmless to the stomach, inexpensive to take and the best form of magnesia for stomach purposes. It is used by thousands of people who enjoy their meals with no more fear of indigestion.

Band Instruments Wanted

Salvation Army at Regina to Organize a Boys' Band

The Salvation Army is forming a Junior Boys' Band at Regina, and are sending out a call for brass instruments. The purpose is to form a band of boys, thirty strong, who will eventually be promoted to the senior organization as they grow older and gain more experience. It is believed that in numerous towns and villages and farm homes there must be many brass instruments that are not being used. The Salvation Army requests that these be sent along, no matter what condition they may be in, and good use will be made of same. Any persons who may not be willing to donate instruments might write the Salvation Army, quoting the lowest figure they would be willing to accept. Any town council or municipality having instruments could not do better than put them to this use. Instruments can be sent by express to Adjutant C. H. Tuttle, Salvation Army, 2054 St. John St., Regina, Sask. or to Wm. F. Gascoigne, Bandman, 1895 Victoria Ave., Regina.

Trace of a Kind

Premier Dunning, of Saskatchewan, was born in Leicestershire, England; Premier Oliver, of British Columbia, was born in Derbyshire, England; Premier Greenfield, of Alberta, was born in Lincolnshire, England. If this does not encourage immigration from England to the Canadian west, what will?—Toronto Star.

Charm of line in bluebird model caps fashioned of black satin with smocking in tiny steel beads is this bit of millinery

May Appoint Ram Grader

Alberta sheep breeders fell in line with those of Saskatchewan and the Eastern Provinces at their annual meeting in Edmonton, recently, when they decided to ask the Federal Government to appoint a ram grader to graze the pure-bred rams brought in to the annual fall sale. Although this will not mean that all the pure-bred rams offered for sale in the province will be graded, as is now being done in the Maritimes it is a step forward in that direction.

Animal Freak Is Found

Zoologists are trying to classify a peculiar form of animal life found in upper Niagara River. The freak is twelve inches long. The fore part of the body resembles a lizard, while the hind part looks like a fish. The mouth is like that of a catfish. The animal is of a spotted brown color and has a smooth skin. It has four legs, the feet being formed like human hands, but with only four fingers. The ears have four lobes, with a tuft on each lobe.

WARNING! Say "Bayer" when you buy Aspirin. Unless you see the name "Bayer" on tablets, you are not getting Aspirin at all. Why take chances?

Accept only an "unbroken package" of "Bayer Tablets of Aspirin," which contains directions and dose worked out by physicians during 22 years and proved safe by millions for

Colds	Headache	Rheumatism
Toothache	Neuralgia	Neuritis
Earsache	Lumbago	Pain, Pain

Many "Bayer" boxes of 12 tablets—Also bottles of 24 and 100—Druggists. Aspirin is the trade mark (registered in Canada) of Bayer Manufacturing of Monachweide, Germany. While it is well known that Aspirin means Bayer Manufacturing, to enter the public against imitations, the Tablets of Bayer Company will be stamped with their general trade mark, the "Bayer Cross."

Work on Provincial Roads.

The ten engineers in charge of the Provincial Government's program of road work for the coming season have been sent out, and are now in the field, ready to begin active operations as soon as weather and soil conditions will permit.

Under the new system adopted by the Public Works Department this year, there will be no more road foremen, and an entirely new code of instructions for the engineers and inspectors has been drawn up for application in the ten districts into which the Province has been divided for road-work purposes.

By the plan, this locality appears to be in District No. Eight, described as "West of Stony Plain, on the Sanguo line, and the Stony Plain to Jasper line." H. S. Day, engineer, Edmonton. The portion of the district immediately adjoining the City of Edmonton will be under the direction of engineers on the department staff.

Testing Dairy Herds for T.B.

Practising veterinarians in all parts of Canada will be given an opportunity to take part in the work of testing herds for tuberculosis under the Accredited Herd Plan, provided they are competent to undertake the work. Dr. F. Torrance, Veterinary Director General, states that this policy has been decided upon by the Minister of Agriculture in order to keep pace with the demand for herd testing which is now entirely beyond the capacity of the regular staff.

To make full use of such men as desire to have their names enrolled for the work, it will be necessary to clothe them with the authority of an inspector appointed under the Act, which can be done only after passing the Civil Service examinations, which will be held all over Canada on the 27th April.

Taking the Bull by the Horns

"We must take the bull by the horns and do something for ourselves," said H. W. Wood, Pres. of the Canadian Council of Agriculture and Pres. of the U.F.A., with reference to the announcement of the unconstitutionality of a Federal Wheat Board. I think if the West ever had any hope of sympathy and fair treatment from this Government it might as well disabuse its mind at once and act accordingly. The Wheat Board was created when prices were high and going higher. Now prices are going down and they threaten to go still lower. And at this time the Government has taken infinite pains to have the Wheat Board declared unconstitutional.

Mr. Wood expressed thorough disgust with the whole affair. "It was clearly manifest from the beginning that the present Government did not want to make any pronouncement for or against a Wheat Board, and while the smothering process was very crude, it seems to have been done very effectively."

"It may be that the West can be persuaded that it has been dealt with openly and fairly in this matter," continued Mr. Wood; "but, while the Western Provinces are young, they are not inhibited by children entirely."

Short Seasons and Potatoes

When growing potatoes in districts with short seasons, attention naturally centres upon means to forward development. These are, says Experimental Farm Notes:

1. Thorough preparation of the soil and good cultivation until blossoming;
2. Selection of a warm, early soil and a frost-protected site;
3. Choice of early varieties;
4. Sprouting before planting;
5. Early planting;
6. Using good sized sets and spacing liberally.

Other things being equal, a sharp slope, a high local elevation, and probably a southwestern aspect, are to be sought. Proximity to open water is of great advantage in warding off late spring as well as early fall frosts.

A potato patch surrounded by a summer fallow or any patch of bare ground is safer from frost than one bordered by scrub, grass or grain.

Growers who prefer a medium-late variety for general use are well advised to plant a proportion of some good early kind, such as Early Rose or Early Ohio.

Bringing the potatoes up out of the cellar and exposing in shallow trays in a light, warm place, so that tough green sprouts will form, is a decided advantage.

Equalisation of Assessments.

The Equalisation Board appointed under the Department of Municipal Affairs last year to equalise assessments on lands throughout the Province is to meet again for similar work this spring. It was the original purpose of the Government in appointing this Board that its valuations must stand for a period of 5 years; but it has since been found that some revisions will be necessary. Legislation was therefore passed at the recent session of the Legislature enabling the Board to sit again this year and check up such previous assessments as may be required.

J. H. Lamb, Deputy Minister of Municipal Affairs, is chairman of the Board, and with him will be associated all of last year's members with the exception of Mr. Spence.

The Board will hold sittings at various points as may be found necessary; one of these points, no doubt, will be in Inga M. D., where what is regarded as a very peculiar system of equalisation of assessments has been in vogue for a year, and has been the cause of much dissipation and squabbling.

Misplaced "Shudders."

The Edmonton Bulletin, in a recent issue, rises to remark: "Dr. Chown, head of the Methodist Church in Canada, says he 'shudders' at the conditions existing in some Western communities which are composed of people born in foreign countries. He would have been far more shocked had he seen the conditions prevailing in some of these settlements twenty years ago, for however backward some of them may be, the foreign-born settler has made long strides toward the Canadian standard of citizenship and in the vast majority of cases is continuing to make steady and rapid progress in this direction. If the Doctor wants to find where the foreign-born resident is really failing to get into line with Canadian sentiment he will have to look, not at the Western farming communities which are made up of such people, but at the court records of the cities of Toronto and Montreal. And while the Doctor is in the mood to shudder he might also note that about three-fourths of the applications for divorce made to present session of Parliament come from the City of Toronto, and the names do not indicate that it is the foreign-born section of the community that is providing that particular menace to the morals of the nation."

Cure For Hard Times

Business conditions in Canada are not good at the present time, and while this Dominion is probably in better shape than most countries, that in itself is poor consolation. Instead of endeavoring to find excuses for present conditions, the chief business of every individual citizen should be to find a remedy and effect an improvement. And the hopeful feature of the situation is that an improvement is not contingent on what Governments, Banks and big financial and industrial corporations may, or may not, do. Betterments will be the result of the actions of individuals.

Somebody made the remark a short time ago that hard times had come. This is challenged by one of the most widely travelled and best informed men in Western Canada who says that the person making such a remark was in error, and that he should have said "soft times have gone." We are not so sure that even this is the correct way of putting it. Rather we would say that too many people are acting on the assumption that soft times shall come.

There is only one remedy for the existing economic ills from which all are suffering, and that is work. Not work by a few, but work by all. Not a minimum of work, but the full maximum of work of which one is capable. Not work as it is advocated by the six-to-eight hour day, five days a week, agitators but work as understood in the biblical injunction "six days shall thou labor"—that is a hard, honest day's work.

A financial man who recently made an extended trip throughout Western Canada studying conditions, states that wherever he went he heard such questions as, "What are the banks going to do?" "What are the manufacturers, the railways, the Governments, the farmers, going to do?" But in no single instance did he hear a business man or citizen say what HE was going to do. There is, as this man said, a mighty serious epidemic of "Let George do it" sweeping the country at the present time, and many business men have the disease in a more or less virulent form.

Commenting on the situation as this man found it, a writer in one of the trade journals says: "It has got so that the popular indoor and outdoor sport of today is 'passing the buck,' and yet we are wondering what is the matter with business. We are all waiting for the other fellow to start something, and feel deeply offended when he signals for us to make the first move. The world has grown so used to play that it cannot settle down to work. The boss is talking and thinking golf. In a few weeks he will be playing golf, and his employees pattern themselves upon him. The stenographer spends the best part of her short working day planning what she will wear to the next dance. The office boy is wondering how many grandmothers he will be able to safely bury during the baseball season. It is the aftermath of the boss taking up golf, under the excuse that he is 'keeping himself fit to play more golf.'"

"There's nothing wrong with business that I can see," said this observant traveller, "but there is a whole lot wrong with business men. Too many people are drawing their pay and their breath, and that is about all they do draw—they are trying to look prosperous even if they don't feel prosperous." They are wondering, and waiting, for others to get busy while adding themselves.

It is well to remember, declares the trade journal from which we have already quoted, that success comes in cans and failures in can'ts. There is only one letter between the two, but it makes all the difference in the world as far as results are concerned, and it is results that count.

The remedy for present hard times, or soft times, is to get away from present-day delusions, and to get back to the good old biblical methods, namely, hard work, bending the back, elbow grease and by the sweat of brows, coupled with the average amount of brains and general thrift, things will soon right themselves.

The great present need is confidence coupled with energy and a will to do. Confidence in our country and in our country's institutions, but above all confidence in ourselves. It is time we quit blaming all our misfortunes and troubles on the war, and after-war effects. Millions of men and women during the war learned to look to Governments and semi-government institutions for clothing, food, and the whereabout to live. This was inevitable when men were taken from their ordinary avocations for military service. But the time has long since arrived when people must stop leaning on such supports, and must exert themselves and provide for themselves. Instead of relying on others to do for them, they must do for themselves. In a word, they must develop their old self-confidence and set to work for themselves.

Until all individuals realize these things, and until they learn that a continuance of so-called soft times in reality means and brings about hard times, the country will wallow in the slough of business depression and unemployment.

CORN

Lift Off with Fingers

Doesn't hurt a bit! Drop a little "Freezone" on an aching corn, instantly that corn stops hurting, then shortly you lift it right off with fingers. Truly!

Your druggist sells a tiny bottle of "Freezone" for a few cents, sufficient to remove every hard corn, soft corn, or corn between the toes, and the calluses, without soreness or irritation.

W. N. U. 1437

Kitchen Lore

The lighter the pastry the more the flour is required.

Rice is delicious boiled in milk and served with sugar and cinnamon.

Hot, unseasoned cocoa may be used instead of scalding milk in custard for those who prefer the chocolate flavor.

Add a teaspoonful of baking powder to old potatoes when they are to be mashed. It will make them light and creamy.

Add a little salt to the water when preparing hard-boiled eggs. The eggs when taken from the water are cracked and the shell is easily removed without the white sticking fast.

No one need endure the agony of corns with Holloway's Corn Remover at hand to remove them.

England has a mill-grist magistrate in the person of Miss Mary Anne Dew, a cloth-wearer in the town of Dewbury, and who has recently been appointed a justice of the peace.

Minard's Liniment for Burns, etc.

Britain Pays Again

U.S. Receives Second Installment for Silver Bought During War

Payment of \$19,672,500 by Great Britain as the second installment on the debt of \$125,000,000 created by the Government's purchase of silver during the war has been reported by the Treasury of the Federal Reserve Bank of New York.

The payment consisted of \$18,500,000 of principal and \$1,172,500 of interest. A further installment of \$12,200,000 on the debt is due May 15, which will cut Great Britain's debt in half.

Under the arrangement for payment by Great Britain on the silver purchases, the debt will be liquidated in May, 1924, these payments being entirely apart from the \$5,000,000,000 of war loans due the United States from Great Britain.

DIGESTIVE TROUBLES
CAUSE MUCH DISTRESS

Are Nearly Always Due To Thin, Watery Blood

Do not think that because your stomach is easily upset you are 'the victim of some serious malady.' One of the most common causes of indigestion is anemia, or thin, watery blood. In fact it has become generally recognized that healthy activity of the stomach is impossible unless the blood is rich and pure.

Dr. Williams' Pink Pills have been found valuable in cases of indigestion, nervous dyspepsia and stomach weakness, just because they are a blood builder and nerve tonic. The rich, red blood following their use not only imparts a healthy digestion, but carries color to the cheeks and lips, and gives vigor to the muscles.

Important point to remember is that Dr. Williams' Pink Pills contain no harmful drugs or opiates and are thus to be preferred to preparations that merely stimulate for a time. Before you begin worrying unnecessarily about your state of health, try the tonic treatment of Dr. Williams' Pink Pills. You will be surprised to see how rapidly your appetite returns and your debilitated system revives.

Miss Virginia North, Brookfield, N.S., who has proved the value of these pills in cases of this kind says: "For a long time I suffered from indigestion, which seemed to carry with it a complication of other troubles. Every meal brought misery with it, as the eating was followed by severe pains in the stomach, causing at times nausea and vomiting, and at other times an accumulation of gas that caused severe palpitation of the heart and a smothering sensation. The result was that my general health was seriously affected and the least exertion would tire me out. I had taken much medicine, but did not get more than temporary relief until I began using Dr. Williams' Pink Pills, which I took for a considerable time, with the result that I now enjoy every meal and am no longer distressed after eating. I find myself in every way enjoying better health, and I can truly recommend these pills to similar sufferers."

You can get Dr. Williams' Pink Pills from any dealer in medicine or by mail at 50 cents a box or six boxes for \$2.50 by writing The Dr. Williams' Medicine Co., Brockville, Ont.

Girls attending the San Francisco high school of commerce have placed a ban on silk hosiery.

Chinese Guarded Silk Secret

For centuries after its first discovery China carefully preserved the secret of silk culture, and amassed great wealth by exporting it to India, Persia and Arabia.

Asthma Cannot Last when the greatest of all asthma specifics is used. Dr. J. D. Kellogg's Asthma Remedy deserves this exalted title. It has to its credit thousands of cases which other preparations have had no power to benefit. It brings help to even the most severe cases and brings the patient to a condition of blessed relief. Surely suffering from asthma is needless when a remedy like this is so easily secured.

Artificial Daylight

Surprising Results are Obtained by Use of Special Colored Glass

One of the most interesting problems in illumination is to provide an artificial source of light which will exactly reproduce ordinary daylight. Such a source of light is invaluable in the textile industry and for the making of fabrics. One way of obtaining the desired result is to filter the light of an electric or other lamp through special glasses, but a British inventor recently produced another form in which all the light is reflected from an umbrella shaped reflector on which patches of certain colors are painted.

All the light used comes from this reflector and is modified by the colors to give a very exact imitation of daylight. An improved form of this artificial daylight apparatus has just been patented.

The reflector consists of two layers of material perforated with holes so that a certain number of spots of the colors are placed. Radial strips of another color are exposed over the perforated layers, the whole arrangement being mechanically strong and giving the correct areas of the various colors to provide artificial daylight.

Mrs. L. R. Littlefield, of McNairy County, Tenn., has 224 direct descendants, including 77 grandchildren, 123 great-grandchildren, and 14 great-great-grandchildren. Mrs. Littlefield is 92 years old.

Minard's Liniment for Dandruff

Rheumatism Is Now
Gone And Wellington
Walks Well As Ever

"I heard so many people telling what Tanlac had done for them that I tried it in my own case and I am convinced it is a wonderful medicine," said David Wellington, a well-known drug clerk, Harper, Manitoba.

"For five years I had been a sufferer from rheumatic fever. I simply ached all over from head to foot and my bones felt like they were going to crack. My knees were so stiff actually I used to walk like I had wooden legs, and I just dragged one foot after

the other. Everything I ate seemed to sour on my stomach and I was bothered a good deal with backache and headaches.

"I began to improve gradually from the first dose of Tanlac and kept it up until my stomach was in perfect condition and the rheumatism had left me. I am in splendid health now and feel that it is only right that I should tell my experience so that others who suffer as I did may know where they may get relief, too."

Tanlac is sold by all good druggists.

Say Canada Is Better Market

Conditions Here Much Better Than In U.S. at Present

N. T. Bowman, advertising manager of the Toronto Telegram, who returned from an extended visit to a number of Eastern United States cities, says that many American concerns and sales companies much better in Canada than in the U.S. at present.

One large firm which uses newspapers almost exclusively in both countries, carrying space of identical size in papers on both sides of the border, and keeping close check on results, reports that during the past year their sales declined 14 per cent. in the United States as compared with only 6 per cent. in Canada.

Another firm, manufacturing a widely-known toilet specialty, although not divulging actual figures, is not less thoroughly convinced of the superiority of conditions in Canada at the present time. This concern also pays scrupulous attention to results and it is as a direct outcome of their recent experience that they have recently commenced a very extensive campaign in Canada, using large space in newspapers and magazines.

Mr. Bowman reports that both agencies and advertisers in the United States are devoting a great deal more attention to Canada than has been the case for many years.

Minard's Liniment for Dandruff

Ontario Mineral Production

It is estimated that the decade's history of mining in Northern Ontario, the various mines have contributed more than \$750,000,000 to the wealth of Ontario.

HEART WOULD BEAT
LIKE A
TRIP HAMMER

Heart trouble has of late years become very prevalent. Sometimes a pain catches you in the region of the heart, now and then your heart skips beats, palpitates, throbs, or beats with such rapidity and violence you think it is going to burst.

You have weak and dizzy spells, sinking sensations, are nervous, irritable and depressed, and if you attempt to walk upstairs or any distance you get all out of breath.

We know of no remedy that will do so much to make the heart regain strength and vigor, regulate its beat and restore it to a healthy normal condition as will

HEART AND NERVE PILLS

Mrs. Chadwick, Delhi, Ont., writes: "I had palpitation of the heart, and the least exertion, such as going upstairs or up a hill, my heart would beat like a trip-hammer and at times I felt as if I was sinking into a sensation as if my time were near."

A friend suggested I try Milburn's Heart and Nerve Pills, so I procured three boxes, and by the time the first one was used I began to improve. In all I took six boxes, and now although in my 66th year I feel like a young girl, no dizziness or heart-thumping, and I can walk miles without any fatigue. At time of sickness I weighed 120 lbs. now I weigh 150.

Price of a box at all dealers, or mailed direct on receipt of price by The T. Milburn Co., Limited, Toronto, Ont.

Still Solvent

The Portrait Artist—Yes, I can make a colored crayon enlargement of your photograph, but I don't recommend it. Have you ever been done in oil?

Mr. Newgitt—Yes, I've been done in oil and trimmed in rubber boots, but I got money enough left to pay for that colored crayon picture.

Perk Up and Smile

Blues and Backache Vanish

Toronto, Ont.—"Less than a year ago I was in a very poor state of health; my back ached dreadfully and I could scarcely drag myself around to do my housework. I started to take Dr. Pierce's Favorite Prescription, and I cannot praise it too highly for the great benefit I received. The backache and pains disappeared entirely and I soon was restored to my normal state of health. Dr. Pierce's Favorite Prescription is the best woman's medicine, for nothing has helped me as much as the 'Prescription.' I have no hesitancy in recommending it to other women who suffer as I did. Write to Kathleen Whillans, 15 Brookfield St.

Reap the Reward of
Perfect Health

Orilla, Ont.—"I had a bad case of woman's trouble, suffered from backache, nervousness, and disordered digestion. I had great pain all the time, sometimes I would faint at my work. I got no satisfaction from anything but what they did me no good. Then I took nine bottles of Dr. Pierce's Favorite Prescription and I found it fixed me up right. I took much better and feel fine. I will recommend Dr. Pierce's Favorite Prescription to all women who suffer as I did. Write to Kathleen Whillans, 15 Brookfield St.

Health is most important to every woman. It is the foundation of all happiness in labor or leisure. The Prescription is made in Dr. Pierce's Laboratory in Bridgeport, Ont. Send 10c there if you wish a trial box.

Compulsory Powers Of Wheat Board Are Not Allowable

Ottawa.—Reconstitution of the Canadian Wheat Board, with compulsory powers, as requested in the memorandum of the Canadian Council of Agriculture and passed for by Progressive members of the House of Commons, is ultra vires the Parliament of Canada, according to an opinion by the Deputy Minister of Justice, E. L. Newcombe, and tabled in the Commons by the Prime Minister, Hon. W. L. Mackenzie King.

Mr. Newcombe, whose opinion is concurred in by Sir Lionel Gouin, Minister of Justice, and Hon. D. D. McKensie, Solicitor-General, holds that the appointment of a Wheat Board, with compulsory powers, interferes with the rights of provinces and of individuals and is, therefore, against the provisions of the British North America Act, 1867. Parliament, however, has an undoubted right to create a board with voluntary powers.

"It is my opinion," said Mr. Newcombe, in the document tabled, "that the reconstitution of the Wheat Board in the present circumstances with the powers conferred thereon by the orders-in-council is a project constitutionally incompetent to the Parliament of Canada."

The Deputy Minister of Justice deals at length with the powers which were conferred upon the old Canada Wheat Board, and says: "It will be perceived, that these powers naturally group themselves into two heads. There are enabling or facultative provisions and there are compulsory provisions. As to those of the former class, I apprehend that Parliament has undoubted authority to constitute a board for the purpose of buying and selling and to enable it to contract and to exercise such powers as are necessary or incidental to a voluntary undertaking.

"The board is, however, invested with compulsory powers and, for the purpose of considering the authority of Parliament to constitute a commission clothed with these powers, it is well to mention some of these separately. They include: (a) fixing of maximum prices or margins of profit at which flour may be sold by millers; (b) the compulsory taking of wheat in store or in transit to compensation fixed by the board, including power by order of the board to transfer the property in any wheat so stored or in transit to such purchase and upon such terms as the board may determine and prescribe; (c) prohibition of the buying and selling of wheat in Canada on commission or otherwise and the operating of elevators or warehouses for wheat except by license of the board; (d) authority to regulate delivery to the board of all wheat sold or purchased in Canada; (e) regulation by the board of the dealings of its licensees.

Brule Mine Busy

Taking on Men at Rate of Ten a Day

Edmonton, Alta.—That the coal strike has far from crippled the Blue Diamond mine at Brule, is the contention of Manager Gordon Dickson. At present there are 462 men on the payroll of which number 210 are working underground and the daily output is 800 tons. The mine is running on the non-union, open shop basis and new men are being engaged at the rate of ten a day.

The management hopes to reach its former daily average of 1,500 tons daily before the end of the month. Representatives of the United Mine-workers are still picketing the station at Brule.

Living Cost Declines

London.—The cost of living in Great Britain fell a further four points in March. On April 1 it was still 82 per cent. above the pre-war level.

British Doctor Dies

London.—The death is announced of Sir Alfred Pierce Gould, widely known surgeon. He was 70 years of age.

Losing Many Cattle

Experts Discover Dehorned Cattle Fed on Clover, Die

Toronto.—Correspondents of the Ontario Department of Agriculture in Bruce County, have discovered considerable loss of life among cattle had occurred in dehorning after being fed on sweet clover ensilage. They say several farmers have reported that on dehorning cattle they found considerable difficulty in stopping the blood flowing and in several instances the animals bled to death. In all cases the cattle had been fed on the sweet clover diet.

Cannot Participate

In Conference

San Marino Has Not Resumed Relations With Central Powers
Genoa.—San Marino, the smallest but oldest republic in the world, has applied through an accredited plenipotentiary for participation in the economic conference. Her envoy was told that San Marino had not yet resumed relations, juridically, with the Central Powers, and that she could not participate in negotiations between countries that were signatories to the peace treaties which terminated the world war.

Germany's Claims Against Russia

London.—The total German claims against Russia, including bank deposits, railway shares and industrial claims generally, were about \$72,000,000, it is reported in financial circles of London. Against this, Russia, in accordance with the Versailles treaty, had claims several times greater.

Danes Sell Soviet Seed

Copenhagen.—In spite of the official Soviet declaration of a boycott on all Danish goods for Russia, the Soviet representative here signed a contract with Danish seedsmen for the early delivery in Russia of seed to the value of 3,000,000 kroner.

Airplane Badly Damaged

Aviators Require New Machine to Continue Flight to Brazil

Rio Janeiro.—The Portuguese aviators who were attempting a flight from Portugal to Brazil, will be unable to proceed in their hydro-airplane from St. Paul Rocks, a few hundred miles short of their goal, where they landed because of damage to their machine, according to a Havas despatch from Pernambuco. The message says their hydro-airplane was so badly damaged in effecting the landing that it is no longer usable. The aviators, however, expected to save the motor.

The estimated distance flown is approximately 900 miles, thus making the time of their airplane approximately 60 miles an hour. Plans had been made for big celebrations on the arrival of the aviators at Pernambuco, Bahia and Rio Janeiro.

Schools in Sweden Are Using Films

Elaborate Plans Being Made for Teaching from Movie Screen

Stockholm.—Swedish school children are beginning to read their lessons from the movie screen. The use of educational films is becoming more and more a part of the lower grade curriculum, even in the most remote districts, and leading educators are making elaborate plans to extend the scope of "film classes."

In the city of Gothenburg, Northern Sweden, the children are said by visiting American professors to know more about Manhattan Island than young students in western parts of the United States who never have visited the metropolis.

One of the most prominent champions of films as a means of study is Prince William, second son of King Gustaf, who has taken complete motion picture outfits with him on his trips of exploration through Central America and South Africa.

Solve Mystery of Missionary's Death

Report Shows Priest Was Drowned in Northern Lake

Edmonton, Alta.—The mystery attending the death of Rev. Father P. Frapace, of the Great Bear Lake Roman Catholic Mission, has at last been cleared. Major G. L. Jennings, officer commanding the R.C.M.P. here, has received a report from Staff Sergeant S. C. Clay, in charge of the Fort Norman detachment, which shows that the missionary lost his life by drowning in the waters of the northern lake.

As is customary with the Mounted Police, every avenue of evidence in connection with the tragedy has been explored, and the report emphasizes the thorough manner in which investigations at the top of the map are made by Canada's frontier service.

Ammunition Dump Explodes

Belgrade.—A terrific explosion occurred at Monastir, in the southern part of old Serbia, when an ammunition dump blew up. The railroad station was destroyed and enormous damage otherwise done by the blast. The number of killed and wounded, says the despatch from Monastir reporting the explosion, is still unknown.

Try to Stop Swearing Habit

Montreal.—The Licensed Victuallers' Association, the liquor dealers organization of Montreal, has had placards printed in both languages, nicely mounted and framed in glass, which they will distribute to all taverns, restaurants, etc., of this city calling for a cessation of the habit of swearing and blasphemy.

Abolish Police Force

Vienna.—The police forces which every traveler in Austria was formerly obliged to fall out upon arrival in a city, giving intimate details of himself and his business, are to be abolished.

The Treaty Between Russia And Germany Must Be Abrogated

Would Stop Daylight Saving

Member Moves a Resolution in the Federal House

Ottawa.—Daylight saving held the stage in the House when W. F. Kay (Liberal, Mississauga) had a motion calling for an expression of opinion that "it is desirable that legislation should be introduced this session to prohibit the adoption of daylight saving time in any part of Canada." Generally speaking, the trend of opinion was against daylight saving, although the desirability of the resolution in its existing wording was questioned.

Wm. Duff (Liberal, Lunenburg) had an amendment. He moved that the motion merely expressed the opinion of the House that "it is not desirable that daylight saving time be adopted in any part of Canada." Discussion was still in progress when the House adjourned. The resolution and amendment now go over on the order paper to the end of public bills and orders. It is unlikely that anything further will be heard of them this session.

Second Sum For Cancer Cure Discovery

Lord Atholstan Offers Another Hundred Thousand as Prize

Montreal.—Lord Atholstan, proprietor of the Montreal Star, has decided to donate the \$100,000 he is giving for cancer research to the Interior Cancer Research Fund of London, of which Earl Balfour is chairman, while a second sum of \$100,000 is offered as a prize for the discovery of a cure for cancer, it was learned here. This latter amount was the sum originally offered by His Lordship and is open to the world, the award to be decided by the Royal College of Physicians and Surgeons, of London, England.

High Price For Bread in Russia

Pound Loaf Now Being Sold for 120,000 Roubles

Helsingfors.—A person just arrived in Finland from Petrograd states that the price of bread in Russia during the last few days has been increasing by leaps and bounds. The pound loaf cost on March 16th, 85,000 roubles; on the 17th, 90,000 roubles; on the 19th, 100,000 roubles; and on the 20th at Oserki, a few miles from Petrograd, 120,000 roubles were being charged.

No recent Petrograd figures are available for purposes of comparison, but the price of rye bread in Moscow on March 6 was 66,000 roubles the pound, and a month earlier 23,000 roubles.

Paris.—Mr. Lloyd George is reported in Geneva advice received here to have informed Dr. Wirth, the German chancellor, that there were only two possible solutions of the present deadlock.

The first was that the Germans must cease to be admitted to the discussions of Russian affairs at the conference.

The second was that they must tear up and scrap the treaty made with the Russians.

Chancellor Wirth, the messages state, while regretting the severity of the latter alternative, did not refuse to take it under consideration and is reported virtually to have accepted it in principle.

The German delegation is active among the other delegations, said these advisers, in an effort to obtain a repeal of the Allied decision pronounced against them. The Germans were particularly insistent in pointing out to the Italian delegation that the departure of the German delegation from Genoa would greatly compromise the conference.

The German delegation was reported to be divided on the Lloyd George's proposal that the Russo-German pact be scrapped, with Dr. Wirth accepting it in principle and Foreign Minister Rathenau opposing it.

No Notes Taken For Income Tax

Regarded Only As Acknowledgment of Debt, But Not As Payment

Ottawa.—Hon. W. S. Fielding takes the ground that it is undesirable to make public transactions between the Government and private citizens in regard to income tax, it was indicated by the finance minister in the House of Commons.

In reply to a question put by R. H. Halbert (Progressive, North Ontario) as to whether notes had been accepted by the Government in payment of income taxes in addition to the note received from the Riddon Pulp and Paper Company, Mr. Fielding said:

"Several notes were received which were regarded by the officials as acknowledgment of the indebtedness, but not as payment. No such notes are now received."

"The Minister of Finance has doubt of the propriety of making public transactions between the Government and citizens respecting income tax. In England, it is understood, such information is regarded as confidential. The right of Parliament to full information regarding public business being recognized, a predecessor of the present Minister of Finance held that if information of this kind was desired, a notice for it should be placed on the order paper, and upon discussion, the House should judge whether the public interest required it to be brought down."

British Arranging Loan to Brazil

Amount is Understood to Exceed Five Million Pounds

London.—The London Times learns that the negotiations for a loan to the Brazilian Government are approaching completion. It is hoped to issue the loan within a fortnight. It will be issued by the Barings, Rothschilds & Schroder. The amount will be a considerable one. Its main purpose is to take up banking credits arranged last year against coffee warrants which are understood to exceed £5,000,000. The loan will be secured on coffee.

Arbuckle Films Banned

New York.—Cancellation of all contracts for the showing of films in which Roscoe (Fatty) Arbuckle appears was announced by Will H. Hays, head of the Motion Picture Producers Association. This action, he said, affected nearly 15,000 contracts.

Fire Prevention.

Along with other big towns and cities, Stony seems to have something new every week to form a subject of animated discussion among the ratepayers and town fathers. The big thing here last week was the discussion on "Fire: Its Hazards, and Its Prevention."

Things started moving on Wednesday, when Mr. Ralph R. Moore, of the Provincial Fire Commissioner's Dept., dropped in on the town, and began an independent inspection. All the business places and workshops were subjected to a close scrutiny, and where an infraction of the Fire Ordinance was apparent, this was pointed out, and the remedy suggested.

A special meeting of Council was called by the Mayor, at which Mr. Moore gave a very enlightening dissertation on fires and the means of preventing same.

The Inspector will make a number of recommendations to the Departmental head on the situation in Stony, and a copy of these will be forwarded to the Town Council in due time.

Mr. Moore promised a return visit to the town in the course of a month's time.

The Sun Letter Box.

The Inga Secretaryship.

Editor Stony Plain Sun:

DEAR SIR: Might I inquire thru the columns of your paper what the situation is regarding the Secretary-Treasurership of the Municipality of Inga. At the first meeting of the new Council, at which I was present, one of the Councillors moved that the last year's secretary be dismissed. There was no dissenting vote to this—three Councillors voting in favor of the motion and the remainder not voting at all. Yet the Reeve is said to have declared the old secretary was re-elected. Not satisfied with this ruling, a deputation from Inga waited on the Minister of Municipal Affairs, who, on hearing the facts, is reported to have told the deputation that the secretary was not elected. If this be so, should the matter not have been brought up at the last meeting of the Councillors? It is well known that the ratepayers in every district in the Municipality are greatly dissatisfied with things as they are at present; and, this being so, it would hardly seem as if some of the Councillors were looking after the interests of those who elected them. Yours truly,

A RATEPAYER.

Stony Plain and District

On Wednesday, April 12th, to Mr. and Mrs. Jacob Mayer, a daughter.

On Thursday, April 13, to Mr. and Mrs. Joseph F. Ulmer, a daughter.

On Thursday, April 20, to Mr. and Mrs. Louis Willie, a son.

Mr. P. D. Bowen, the horse man from Calgary, and M. Horseshoek, of Red Lodge, were visitors in town on Saturday.

Mr. Barrie has rented his half section at Edmonton Beach to Wilfrid Cleator Jr. of Saskatchewan, who is a thorough dairyman and gardener, and intends supplying summer cottages and campers with such, including poultry and wood.

Mr. O. F. Dammhauer has sold his farm at Carleton to Mr. Jacob Altheim, the deal being put thru by R. L. Ghieslin.

C. H. Whitelock, of Innisfail, is visiting his uncle, Mr. Joe Whitelock, at Golden Spike.

Mr. Hadley, who has been farming in the Golden Spike district, is moving up this week to the Adolf estate, in the suburbs.

Mr. Theodor Winec will return to farming the coming season, having purchased a farm in the district South of town.

The garage at Spruce Grove has re-opened and is now in charge of Mr. Bell.

Dr. Frith last week sent out two paraded Holstein cows to his farm, "Cloverside," at Glory Hills.

A moving picture entertainment will be held at Spruce Grove, on Friday, April 28, at 8 p.m. This show, which will be given by the Department of Extension of Alberta University, is of a high class and an enjoyable time is assured.

Mr. N. J. Bailey is stocking up his ranch near Duffield, having recently purchased 64 head of cattle.

Mr. Hellum was last week elected Trustee on the Duffield School Board.

Calahoo U. F. A. held a very successful dance in their hall on Friday evening, April 21.

Mr. Stirling has moved up to the McLeod farm, near Calahoo, for the summer.

J. H. Griggs of Edson has resigned as a J. P., and W. J. Keen of Evansburg has been appointed a J. P.

Miss Bea McDermid, Assistant Superintendent of the Women's Institute for Alberta, has been released by the Provincial Government.

The W. I. Provincial convention will be held in Edmonton in June, this year.

Lamont U. F. A. wants a grain cleaner elevator in Edmonton district, owing to the congestion at Pacific shipping points.

At the next meeting of Killam Women's Institute, the subject to debate will be—Resolved, that a college education for women is a luxury, rather than a necessity.

A. Kaus has opened a General Blacksmith Shop at Bright Park, and is prepared to execute repairs of all kinds to farm machinery.

Subscribers not getting their copy of The Sun regular, may obtain another copy at this office.
